A Recipe For A Well Seasoned Path

by
Karen A. McKeen

Paths are created through time,
they are patterned and pounded by consumption.

To create your path, you must season it
with your own unique spices of life.

Groom your path to let in the heat;
to absorb the cold; to cherish the light;
and to bare the dark.

Add humor with a dash of patience and slowly
mix in the strength.
Remember, the most flavor filled paths
are not bland.
Each step on your trail should bring a new taste.

If mixed correctly it should vary
in seasonings: let it be colorful and dark;
open and narrow; direct and winding;
calm and restless.
Let your path change and grow with each passing.

Breath in and cherish the aroma you have created.
Be open to all life, share your recipe
and let them sample your cheer.

When you begin to pattern your path
be sure to use all your senses:
Feel the desire; Smell the essence;
See the ingredients; Hear the reactions.

A well seasoned path will inevitably adhere to your hunger,
and fill you with success.

Ingredients:
-1 cup Humor
-1 cup Patience
-1 cup Strength
-1 gallon Love

Changes in Regis

If you have ever read the *GIVING TREE* by Shel Silverstein, you would be able to envision the story of a tree sharing his life gifts with the main character of the story, a little boy. Within each page of the book, a young boy grows into a man with the gifts from his generous benefactor, the giving tree. Regis has been our 'given tree.' Each day as a community, we grow and learn from one another. This yearbook reflects the 1994-1995 college days. Look, observe and see your growth in the Regis Yearbook called Changes, for without change, there can be no growth. by Jawanda Marie Spears

Cheers from Maria Pit ▶

Changes in Fall

Fall is always a great time for Regis College. The trees change from vibrant green to shades of orange, red and yellow. And a new class is always welcomed with open arms.

This year, the Class of 1998 was welcomed into the Regis community. Parents' Weekend became Family Weekend with a bang of Caribbean tunes, a celebration of Juniors and Seniors, and an inclusive all campus cookout.

Sports continued and the play Antigone dazzled its audience with the performance of Junior, Aimee Bel and First year student, Rosie Martone to name a few. The club, AHANA, was established as a part of the Regis community.

We invite you to open the pages to learn more about the Changes of Fall. by Jawanda Marie Spears

Fall passes as Spring at Regis during the Autumn of 1994.

A word from a Regis First Year Student.

Ivory Tower and Togetherness

By
Rosemary Guillette

As the class of 1998 entered Regis College, we were both fearful and hopeful of the future that awaited us at the end of our four year journey. We laughed with the upper classwomen in the annual scavenger hunt in Boston. We shaped our ivory dorms into a home of color and friendship. Regis became a place where we could call home. During international month we learned about different cultures and foods. The class seemed to come together more and more as the discussions in seminar moved from shallow to heartfelt. The class dressed up and went to many plays, where we found an appreciation for the arts. The class also realized how great it was to have access to the beautiful Fine Arts Center. Antigone was a play produced by Regis students in the Fine Arts Center where many of our classmates showcased their talent. Then came our retreat to New Hampshire where we bonded with each other and nature in a way we had never imagined. Since our first days as Regis students, our class has bonded. We have begun to make our mark, from the election of our officers to the success of the class sponsored haunted house.

Family Weekend, The First Tradition of the Year.

Family Weekend is the first tradition of the year at Regis College. It is a time for parents to come and replenish students' snacks and quarter supplies, the time for parents to find out the real truth as to how their daughter is doing. For the Freshwomen, the parents are curious as to how well adjusted their daughter has become. For the sophomores, they celebrate their second year as Regis students and join the fun of their Big Sisters.

For the Juniors, they receive their class rings during a ceremony in which the rings are blessed. A very appropriate occasion to display the newest piece of expensive jewelry! For the Seniors, it is the unusual custom of being dressed by professors. For all classes, Family Weekend marks the beginning of the year when life has finally settled down, schedules have been set and the opportunity to show parents how great Regis Women are!

Changes in Winter

What a winter Regis had this year. In November, we celebrated Thanksgiving. Fall type December was a wonderful treat. The Semi-Formal was a blast of black evening wear and the Christmas Banquet welcomed all students to share the spirit of giving and celebrating. Students later sung together at the candle light ceremony where Seniors held candles celebrating their last Christmas with the Regis community.

In January, the Regis community welcomed Dr. Pamela Menke back from sabbatical. As February appeared, AHANA celebrated Black History Month campus wide. A wonderful lecture was given by Dr. Greer Gordon on the future of ethnicity. Also in February, Buckwheat Zydeco cruised onto the Regis stage with zydeco music, a dance hall music of the Black French speaking Creoles of Southwestern Louisiana. To end winter, Campus Follies was a hoot of jubilee and laughter for the community of Regis.

Regis celebrates Christmas

by Sherrilyn Powers

Regis College celebrates an early Christmas before the semester ends. It is a festive time of year filled with much tradition known to the women of Regis. Each year a Christmas banquet is held and it is there that we the Regis community celebrate the beginnings of the holiday season together. Although the banquet is an annual experience this year's banquet was special and unique. The first year students experienced their first banquet, the class of '97 fulfilled their obligation to serve, it was the first banquet that the juniors celebrated with their sparkling rings and the last Christmas the senior would celebrate together while at Regis. Together we celebrated the gift of giving and the gift of song, we shared laughter and shed a few tears. It was a gathering of friends that formed a special piece of our Regis experience indeed each of us will hold, "safe in our keeping."

"I think I skipped a line." Perhaps. Regis Senior, Jennifer L. Girard sings the Senior Christmas song.▶

Changes In Seniors

One is not born a woman, one becomes one. — Simone de Beauvoir

We arrived at Regis as girls with a great deal to offer but somehow we seemed to be wrapped up in cocoons not sure of how to express ourselves or utilize our talents. As fall turned into winter and winter turned into spring, we gradually came out of our shells and became more comfortable with our individuality, discovering that it was acceptable to articulate our hopes and dreams to others.

As the seasons continued to change throughout our sophomore and junior years, so did we: intellectually, spiritually, occupationally, socially, physically and emotionally, all for the better. By the end of our senior year we were no longer entrapped in the body or the mind of a girl. We had become women with a rainbow of colors on our wings ready to take risks and live our dreams.

With these achievements in our past, we should never underestimate our capabilities and strengths. Therefore, in the future, when times get tough and seem bleak, we should not forget the hard work we invested in becoming women. After all, one is not born a woman, one becomes a woman.

A Family That Eats Together, Stays Together.

This is very true of the Regis Family. The Regis Community always seems to eat together, whether in the college dining hall, College Cafe or at one of the many Regis functions. We sit, talk, laugh and share together as one big happy family. So, whenever you want to gather with friends, remember the Regis recipe; food, something good to drink and plenty of conversation.

Changes

in Staff and Faculty

A day in the life of the Regis Staff and Faculty can be an interesting one. At seven a.m., one can find Costa Floros of Housekeeping and others preparing for their day. In the cafe, students are greeted by peers to eggs, toast and coffee. At College Cafe, Mary invites staff, students and faculty with a pleasant smile and hot pot of coffee to a healthy breakfast. In College Hall, a laugh through the halls of Regis means Dr. Smailes is around. A gathering of intellectuals in the hallway of the third floor College Hall means Dr. Gordon, Dr. Elliott, Dr. Munley and Dr. Pam Menke are discussing the trials and tribulations of the world. A cute beret may be on the top of the head of Dr. Liazos. Classic music finds its way out of the door of such Professors as Sister Marie Cicchese. A quick sprint to the copy machine will find Dr. Zeiger and perhaps Dr. Ortiz. Dr. Vetterling greets with Hola! In the science building, Dr. Croll entices his students in the field of physics and Dr. Roman teaches the importance of women in science. On the campus of Regis, yes, there are many men and women who make up the Regis Community along with students. Turn the page to view the Regis Staff and Faculty.

The Professor Called Menke.

by Aimee Bel '96

"Honor difference." Simple, yet comprised of such a complex weave of meaning, this statement of focus lays the ground work for one of the most dynamic classrooms at Regis — that of Dr. Pamela Glenn Menke. In every course, Dr. Menke, sitting cross-legged atop her desk, challenges her students to think in new ways by counterbalancing the works of traditionally studied authors with those of lesser known women and writers of color. At every step she encourages students to find the connections, to discover those threads which both define the different facets of our world and intertwine to create of us a whole.

Dr. Menke had just this semester returned from the Five College Center for Women's Studies Research in South Hadley. She was one of a mere handful of individuals selected from all over the world and many different disciplines as a research associate for this program. The associates prepared both individual projects and collective works. The discussion centered on feminist theories and various approaches, techniques, etc. Dr. Menke's research paper (yes, even Professors have to write them sometimes) explores how a white feminist reads the fiction of African American and Native American women, and how she interprets the meaning.

For the Regis Community, one of the most exciti aspects of Dr. Menke's research is that she incorpora it into her teaching. For example, in her professional l she has written extensively about such authors as T Morrison and Gloria Anzaldua. This expertise gives a ri texture to the discussion of books such as *The Blu Eye* and *This Bridge Called My Back.* It is this cont which allows Dr. Menke's students to take interpret risks and to begin asking difficult questions.

As she says, "to generate awakenings" is her great goal. So, with an open mind and heart, and always w her signature smile, Dr. Menke invites her students explore with her multi-colored, multi-textured fabric our world.

Dr. Menke doing what she does best, teaching others.

Changes IN Students

This is the world, and in it is mine
Be strong, be beautiful, be glorious
— because you are —
The heaven touches you and beats
a steady spirit within
The sun is your spirit, and the wind moves you
along, and along, and along . . .
dance, run, skip, jump, sing
Sing aloud for your voice is strong and free
Let your voice shower down with thunder
Let them hear you, let you hear yourself
Be soft, be loud
Celebrate, celebrate, celebrate
for you are loud, for your love, and for all those who are yet to love you.
Be tenacious,
Be wonderful, be yourself, know you can
Become yourself, and become the world — all on the same day.

The Autumn of My Days: A Junior's Perspective

by April Eve Alger '96

I knew what I wanted. I knew where I was going and who would make my journey with me. I did not need to know the questions, I already had all the answers. I planned, mapped and charted my every move — but then things changed.

I do not know how or when, but unexpectedly, I found myself sitting back to enjoy the ride. Next to me were faces that were not the faces I had expected to take my journey with. They had changed too. I began to explore. My eyes were opened and I asked myself "Has this always been here?" "Why had I not noticed this before?"

For some, the close quarters did not make for a pleasant trip. Insecure with their abilities, some took short cuts. I watched while others, terrified of their own potential, followed the guided tour. And there were some who planted themselves on the side like flowers refusing to bloom; holding on desperately to the height of their glory. But I chose the 'road less travelled' and found change to be intoxicating. Exhilarated as I drank in the green of my summer, I was transformed. In this journey, it was impossible to remain unchanged. I was caught between where I had been and where I was going. Suddenly I realized that where I was standing bore no resemblance to what I had expected. And the faces again had changed.

And now, on the edge of my autumn at Regis College, I only have questions. Where am I going? How will I get there? Am I ready to take those final steps on the path towards a new beginning? When will I begin to turn and change as the leaves on the trees? When will I be ready to fall?

"A class act during Black Tie."▶

The Story of the Pine Tree

by Laura Edwards '96

Deep in the woods, there once was a tall pine tree. She has lived in the same spot her entire life, surrounded by her mother and countless siblings. As a child her mother used to tell her the story of her birth. "You were just a small seed attached to a pine cone," her mother said, "waiting to drop from my limbs." The pine cone dropped and the years passed. She breathed all the carbon dioxide she could. Growing tall and strong, she spent her days peacefully in the evergreen woods.

She lived through many seasons; welcoming each spring, and warming each summer. She even had children of her own; all spread over the vast land of the evergreen woods.

However, her life as a tree lasted no longer than any other's. It took but a short time for her and her family to be chopped down and made into a variety of pencils, countless sheets of paper, brown cardboard boxes and an assortment of colored wood blocks.

Thus we learn from our beloved trees that change is certain in many facets; we, like the tree, are constantly changing. As you leave here now, you change. Life is uncertain, yet chances are all to be regardless of the obstacles that may stand in your way. Don't be afraid to change direction. You may, in the end find exactly what you are looking for.

Junior, Laura Edwards reads in the comfort of her home.◀

Jennifer Erickson (left) and Hilary Smith (right) are two beauties.▶

Branching Out

A Senior's Perspective by Erica Scalzo, 1995

Hey, hey from Darcy and Hilary.

Change is inevitable. Through the years we have grown nd learned a little bit more about ourselves. As young women, we started our journey at Regis College driving up the hill among a path of beautiful trees. On that cold and misty August morning those trees stood strong against the winds and against the changing seasons. If these trees were given a voice, they surely would speak of their long standing history and roots here at Regis College. Like these trees we have created our own roots, our own history here as Regis women. We have grown and changed as we have established ourselves as successful and independent women.

Although we come from different backgrounds, and different places we share the common experience of Regis College. We have planted some small parts of ourselves here. Even though we may leave this institution at graduation, a part of ourselves will always remain here. For it is here that we have experienced our low times and our greatest achievements. It is here that we have made friendships that have touched us in many ways. Through these relationships changes within ou selves and how we relate wi others varies.

College is not only a pla that teaches academic areas it is a place where self-estee and self confidence is four Four years of growing a changing has affected us a However, we graduate with t skills needed to succeed in day's complicated world. Tim may be difficult, but like t trees that border Regis' ma drive, we will stand tall a proud against changing en ronments.

Erica Scalzo poses with fiancée.

Use the mind. Senior, Johanna Taylor (left) and Junior, Katie Lamanna (right) do a little thinking in Domitilla Hall.▶

Future Changes

by Anne Marie Nolan

Change is something to be both feared and cherished. It can either render someone's life victorious or create a disaster around another person's feet. Is change good no matter what form it comes in? I believe it is, for without change there is no growth and without growth there is no life. Life is to be lived and to be experienced, not to remain stagnant.

Looking back, as a senior, on my past four years, Regis has acted like a bridge, carrying me over to the next phase of my life. It brought many challenges which I had to face. The most overwhelming realization is that I met all those challenges and overcame them. What was that Elton John sang, "I'm still standing, better than I ever did . . . " It is this that we all must remember: place our accomplishments ahead of our shortcomings and move with the direction life takes us.

We will soon be facing one of the biggest changes in our life after we leave the hallowed hall. Will we ever know who will become the teacher, the lawyer, the concierge, the wedding coordinator, the radio announcer, the athletic trainer, the business woman, the psychologist, the president of the United States or the park ranger in Walt Disney World? Perhaps we will never know who will earn the illustrious careers but it is the unknown which is exciting.

Anticipating this change is difficult yet empowering. I now have the opportunity to change my life in a way I never thought possible. This opportunity would not be available if my life had not been changed at Regis. This drastic change may be feared but I will not let it suppress my goals to live a long and happy life.

As We Set Sail

by Stephanie H. Keefe '95

It was a short four years ago that the class of 1995 laid the foundation to what was to become a tall towering structure in a male dominated business world.

It was September of 1991 when we set sail upon a journey that no one was quite sure where we would drop anchor. Many of the midshipwomen of Regis were unclear as to what direction to set their compass, where as others were determined where to guide their ships. During this first year there was much controversy fermenting with the coming of age of sexual harassment and Anita Hill to the closing term of the seventh President of Regis College, Sister Therese Higgins. By the end of the second semester friendships had grown, roommates were found, majors were being developed and we were on our way.

The year 1992 became the year of the WOMAN with the largest number being elected to public office. President Clinton was elected as the candidate of change and Sister Sheila Megley became our guiding beacon. We served our crew as they gathered for a Christmas feast and we remained strong as we struggled through that infamous Sophomore slump. Our big lives began to take real direction as we had declared our majors and bid a last farewell to our graduating big Sisters.

As 1993 emerged we found our ships amidst "White Water." We managed to trudge through as we finally became upperclass women with the ring ceremony induction. We gathered frequently in our new dining room as we shared a tale or two about our various internship experiences. We also became culturally sophisticated. We attended the multitude of performances at the Regis College Fine Arts Ce ter.

It was in 1994 that we moved into ou various cabins for the last time. We let ou "true colors shine through" as we dazzle the campus with our hoops. We made ou parents proud as they watched us gathe for Cap and Gown. We led the campus i Christmas Carols and we blossomed into new form of womanhood. We becam "leaders in action" and friends for life.

It is 1995 and our ships have set sai this time we sail alone with a sense of d rection and determination that can not sto us. We have become tall towering struc tures: we are Regis College graduates an that's what makes us lead the pack in th male dominated world we live in.
We thank Regis for granting us our futur and for being a part of all our tomorrow:

Seniors, Julianne Gee, Hilary Smith, Maiysha Roston, Claire Polleys and Wendy Holder are recognized for their scholastic achievement.

Serri Powers was a recipient for the Outstanding Service and Leadership Award. "It's amazing the time that has passed us by and think of all the accomplishments we've achieved along the way." (Sherrilyn Powers, Oct. 2, 1994; Service and Leadership Address)

Erica Scalzo was a recipient for the Outstanding Service and Leadership Award. "If I were only allowed to carry one lesson away from me when I graduate, it would be the concept that success through teamwork is the most rewarding." (Erica Scalzo, Oct. 2, 1994; Service and Leadership Address)

Kerry Colozzi was a recipient for the Outstanding Service and Leadership Award. "Being involved at Regis College has taught me a lot about people, a lot about myself and a lot about taking risks." (Kerry Colozzi, Oct. 2, 1994; Service and Leadership Address)

The Class of 1995 Has Changed.

It is the tears, the river what you wait for, hope for, dream for, what you see, what you live. The tears are real. In them WE become. The river cries that which we can never say. Currents, waves, your heart, my soul. WE, undulating, surfacing, changing, becoming. The tears, the river, the real. It is the tears, it is the breath, the freedom of the water. The amorphous, fluid, whole. The dream undulating, surfacing, changing currents, waves. All said, all unspoken. Dreamtears licking the earth. WE rising from wet sand, growing, changing with the currents, with the waves, becoming with each other. by Aimee S. Bel '96

Changes

Keep in Touch

Remember your Regis Classmates always. Remember, we spent long hours together. We learned about one another, we shared our experiences, our dreams and our goals with each other. Now is the best time to drop a line or two to Elizabeth Pond in Norwood, MA or Robyn Fioretti in Natick, MA. You can even send a letter to Ecuador; that is where you will find Julianne Gee. Jennifer Mullen is a great person to write to; she is in Newton, MA. A letter to Japan would be great to send to Mika Sato and hey, what about a letter to Jawanda Spears in Brockton, MA? She would love to hear from each and every one of you. No matter who you write, remember all you have to do is turn the next couple of pages and you will find your Regis classmate. So, take a pen, a pencil or even a quill and write a "Hi," "Ciao," or "Buenos Dias" to someone, but most of all, remember us all.

The Editor of the Yearbook would like to dedicate this page to Sister Viterbo McCarthy, class of 1942, former Professor of Psychology.

No Words, No Pictures.

I would like to thank Sister Viterbo for believing in me and for always having a knack for knowing when I needed a friend to speak to. Though she is no longer here with us, she is always on my mind. Sister was the type of woman I want to be; loving, caring, honest, and sincere in many thoughtful words. I wish everyone could have known this vibrant Regis Alumna. S was truly a Regis woman. Perhaps if y touch this page you will be able to feel h presence, her spirit, the kindness she ga to others. Sister was and always will be r giving tree. May you someday find yo true giving tree. Jawanda M.

The Polleys Family
Dr. Ed Stevens

You've come a long way
BABY!

And we are so proud of you!
Congratulations!!!

MOM & DAD

Kerry Anne,

It's hard to believe how quickly you've grown into a woman and all you've achieved.

We are so proud of the wonderful things you've accomplished — and it's just beginning.
Congratulations and we love you.

Mom and Dad

When you selected Regis College, you made an excellent decision.
Congratulations on a job well done

Mom and Dad

Congratulations Tracy,
We are very proud of you.

Love
Mom and Dad

"Hey Ma! How about I stop school after the 2nd grade and help you with the house work?"

Well you certainly have gone much further from that idea. Joanne, good luck with your career. We are very proud of your accomplishments.

Love
Ma and Dad

All Our Love!

Mama and Dad

Congratulations and Best Wishes
To the Class of 1995!
Jane Orr

Congratulations Diana!
We are all so very proud of you. Never stop reaching
for the stars. We wish you the very best of success.
Love
Mom, Dad, Kathleen & Kevin

Cynthia,
We're very proud of you. You worked hard and deserve everything you want out of life. We love you!
Dad, Mom & Criss
Can we talk now?

Kim Ann:
We are so very proud of you!
Love
Mom and Dad

Jenniefer, Congratulations for becoming the wondereful person that you are. You have always been our "Breath of Spring" We have watched you blossom into a beautiful, intelligent, talented and loving woman. We are so proud of you. May your future be filled with health, happiness and success. Love and support always.
Mom, Dad, Anthony and
"BUBBA"

TO ALL THE BRIGHT BEATIFUL
REGIS WOMEN . . .
KNOCK THEIR SOCKS OFF!!

The proud Family of

ERIN ANN OCTIGAN

To Jen:
I am so proud of the woman the "forget-me-not" girl has become. I know your mother is just as proud of you as I am. Keep up the good work!
Love
Dad

Congratulations
to the
Class of 1995.
from
Career Development

We knew you'd reach your goal and we are so very happy for you, and very proud of you. Your efforts have been an inspiration to all of us and your perseverance has never diminished. May that light within you glow and motivate you to many successes and personal achievements in the coming years. All our love and continued support always.
Mom, Dad, Crista & Brian

Darcy,
There are only two lasting bequests we can give our children. One is roots, the other is wings. May you always soar to the highest. You've earned it! We're so proud of you.
With Love
Your Family

Amy and Jill,
I couldn't have made it through this year without you. I'm proud of you both! May all your dreams come true!
Love
Barbara

Congratulations and Best Wishes
To The Class of 1995!

The 1995
Yearbook Staff

Dear Una, (A.K.A. Missy or Miss Pooh)

Words cannot describe how proud we are of you, your life and the choices you have made on both personal and professional matters.

Surely the world is a better place because you're here. We wish you love, happiness and success and we will be here for you as long as the Good Lord allows us the pleasure.

With much Love,
Mom, Dad, Aunt Debbie
&
Uncle
Brian

Dear Kris,

As the years have flown, you have grown to a beautiful woman. Now, as you graduate from Regis I can only tell you again, how proud I am and have always been. Never change your loving, caring and warm ways. Love to you now and forever.

Dad, Mum, Lenny & Gileedo

"Goodnight, God Bless you, see you in the morning, sweet dreams"

From a cute tiny baby
to a beautiful young woman!

You have given us ultimate joy, happiness and love

May God grant you all your dreams

Love always,
Mom, Dad, Lisa and YiaYia

Wendy,

Congratulations! We are so very proud of you and all you have accomplished! We love you very much and know you will succeed in fulfilling all your future dreams and goals!

Love

Mom, Dad and Wayne

Dear Annie,
You've done a great job and we're all very proud of you!

Continue to believe in yourself, and you will always be successful in life.

Love

Dad, Mom, Joey & Chrissy

CONGRATULATIONS AMY! WE KNEW YOU COULD DO IT.

Love
Dad and Mom
Linda, Gordon, Russell & Derek

Congratulations WENDY!
We're very proud of you and we love you. We'll always be here for you.

Love
Mom, Kelley,
Dan & Tracy

We're very proud of you

Mom, Dad & Mike

Christine,

We are so proud of you and wish you the best of everything in your future.

Love,
Mom, Dad, Carrie,
Tom and Jaclyn

"Each person has the right to study and learn in a quiet, comfortable environment — without fear, without humiliation, without destruction of self esteem."

Congratulations and best wishes to
a very special class

Office of the Dean of Students

A Recipe For A Well Seasoned Path

by
Karen A. McKeen

Paths are created through time,
they are patterned and pounded by consumption.

To create your path, you must season it
with your own unique spices of life.

Groom your path to let in the heat;
to absorb the cold; to cherish the light;
and to bare the dark.

Add humor with a dash of patience and slowly
mix in the strength.
Remember, the most flavor filled paths
are not bland.
Each step on your trail should bring a new taste.

If mixed correctly it should vary
in seasonings: let it be colorful and dark;
open and narrow; direct and winding;
calm and restless.
Let your path change and grow with each passing.

Breath in and cherish the aroma you have created.
Be open to all life, share your recipe
and let them sample your cheer.

When you begin to pattern your path
be sure to use all your senses:
Feel the desire; Smell the essence;
See the ingredients; Hear the reactions.

A well seasoned path will inevitably adhere to your hunger,
and fill you with success.

Ingredients:
-1 cup Humor
-1 cup Patience
-1 cup Strength
-1 gallon Love

Changes
